Dear NGO Representative,

I am pleased to inform you that the Economic and Social Council (ECOSOC) at its Substantive Session of July 2012 adopted the recommendation of the Committee on Non-Governmental Organizations (NGOs) to grant **Special** consultative status to your organization **Vienna Economic Forum**. On behalf of all staff of the Non-Governmental Organizations Branch, please accept our heartfelt congratulations.

Consultative status for an organization enables it to actively engage with ECOSOC and its subsidiary bodies, as well as with the United Nations Secretariat, programmes, funds and agencies in a number of ways. In order to better understand this relationship, we take this opportunity to provide some critical information about the **privileges** that consultative status with ECOSOC confers on your organization, as well as the **obligations** that your organization will be required to meet under this relationship. **We therefore urge you to take the time to carefully review the information we have provided below.**

Privileges and benefits of consultative status

Vienna Economic Forum

DEAR MEMBERS, PARTNERS AND FRIENDS OF
VIENNA ECONOMIC FORUM!

HONOURED PRIME MINISTERS – PATRONS!

EXCELLENCIES, LADIES AND GENTLEMEN AMBASSADORS!

DISTINGUISHED HONORARY MEMBERS!

The year 2023 marked a significant milestone in the success story of Vienna Economic Forum (VEF)!

On the 13th of November 2023, in the Festivity Hall of the Vienna City Hall, all of us – had the excellent feeling of being an immanent part of this success story, by organising and celebrating the 20th Jubilee Vienna Economic Forum – Vienna Future Dialogue 2023!

Promoting international and intercultural understanding and supporting the development of the regional economic cooperation has been the goal of Vienna Economic Forum (VEF) since its foundation in 2004. VEF was born in an enthusiastic era as a vision, incorporating the dream of the peoples form “The Region from the Adriatic to the Black Sea” for a common life in peace and prosperity.

Registered on 24th of April 2004, under Austrian Association Law, VEF has evolved remarkably over the years. Remaining true to its founding vision, VEF has steadily progressed in its mission and achieved several milestones. It has attained the esteemed Status of an International Non-Governmental Organization (Int. NGO) as per Austrian law; VEF holds Consultative Status with the Economic and Social Council (ECOSOC) of the United Nations (UN); VEF is registered in the Transparency Register of the European Union (EU) and the European Commission (EC). Today, VEF proudly flies its own flag at the VEF headquarters, located in the ambassador's quarter in Vienna. This emblematic presence symbolizes VEF's commitment to its mission and its esteemed stature in the international community.

We proudly stand today, reflecting on 20 years of progress since the beginning, observing the successful development of economic cooperation among entrepreneurs from the member countries of Vienna Economic Forum – Albania, Austria, Bosnia and Herzegovina, Bulgaria, Croatia, Kosovo, Moldova, Montenegro, North Macedonia, Romania, Slovenia, Turkey and Ukraine – throughout these years.

The recognitions received for VEF's 20 years of dedicated work, acknowledging its longstanding activities in the region and exceptional contributions to international and intercultural understanding, serve as motivation for the VEF Team to persist in consolidating the VEF Region "From the Adriatic to the Black Sea."

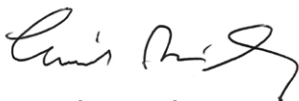

Throughout these years, Vienna Economic Forum has remained committed to its founding goals and encapsulates the vision that inspired the VEF founding in 2004:

- To popularize and promote investment opportunities in the region from the Adriatic to the Black Sea.
- To provide impulses and, based on research, joint projects required in the region for short-term, medium-term, and long-term realization, and promoting their implementation.
- To become a place of definition, encounter, and of realising the public and private interests in connection with the various projects in the region as part of united Europe.
- To pursue a strategy fostering economic cooperation and the development of VEF member countries as a cohesive region, forming a "VEF Economic Area".

We express our gratitude to all VEF members and partners who have supported VEF over the years, contributing to its growth and serving as a symbol of unity for the region. Many of them joined the 20th Jubilee Vienna Economic Forum, offering words of support and praise and honouring the success story of Vienna Economic Forum – 20 years of active and remarkable work, as well as its pivotal role in economic diplomacy over the past two decades.

A sincere thank you goes out to all of you, dear Members, Partners, and Friends of Vienna Economic Forum, for your longstanding trust and support, for joining us in the work and in celebrating all 20 Years and the 20th anniversary of Vienna Economic Forum! We invite you to continue to be with us in all future activities and upcoming jubilees, as we strive for many more successful years of collaborative work and achievement, for better international and intercultural understanding in the Region "From the Adriatic to the Black Sea" and beyond.

The text 'Environmental, Social, Governance' is arched over the top of the globe in a white, sans-serif font. The background is a blurred green forest scene with sunlight filtering through the trees.

Mit dem Aufstieg des Tech-Unternehmertums als wichtiger Motor für Wachstum und Investitionen weltweit hat sich die Türkei erfolgreich zu einem aufkeimenden Zentrum für Start-ups entwickelt. Viele internationale und einheimische Risikokapitalfonds, die in der Region investieren wollen, haben in Istanbul eine Niederlassung. Invest in Türkiye legt größten Wert auf den Erfahrungsaustausch mit seinen regionalen Partnern und schätzt die Zusammenarbeit. Im Juni 2023 fand in Wien der erfolgreiche Abschluss der ersten Runde der “Türkiye Century Investment Receptions” statt, die von Invest in Türkiye als Teil der Roadshow zum 100-jährigen Bestehen der Republik Türkiye veranstaltet wurden. Vienna Economic Talks – Prishtina Meeting 2023*

Vienna Economic Forum is proud to have organized this successful event under the **Motto "Regional Cooperation in a Fragmented Environment"** together with the **Government of the Republic of Kosovo**.

The discussion highlighted the importance of investments especially during these difficult and critical times, focusing on some of the most important and critical sectors of today's times: banking, insurance, infrastructure, energy, water management. The high-ranking participants and audience had the opportunity to learn about some of the projects and initiatives presently ongoing in the Republic of Kosovo, the advantages that Kosovo is offering in a time when global investments and economy are in peril and are undergoing profound transformations and tackled the topic of investments remaining sustainable and resilient toward climate change. Furthermore, the absolute necessity and importance of innovation and technology as a precondition for future economic development were discussed and accentuated. Many companies already present at the Kosovo market shared their experiences and presented their near-future development strategies.

Vienna Economic Talks – Prishtina Meeting 2023 under the **moderation of Mr. Astrit Panxha, Executive Director and Co-founder, Kosovo Manufacturing Club (KMC)** was opened by **Ambassador Dr. Elena Kirtcheva, Member of the Board and Secretary General of Vienna Economic Forum** who highlighted the excellent and long-standing collaboration between Vienna Economic Forum and the Republic of Kosovo. She stressed that Vienna Economic Forum is the first international organization that Kosovo entered upon the announcement of its independence 15 years ago and how proud VEF is of this fact. In her **Opening Statement** Ambassador Kirtcheva emphasized the ever-rising importance of regional cooperation and the view to the future always having in mind the consolidation of the VEF region **"From the Adriatic to the Black Sea"**.

In his Introductory Statement **Ambassador Victor Jackovich, President Jackovich International LLC, USA, President of Vienna Economic Forum** stressed the fact that the businesses and politics are not separable, they are always intertwined. Very often business can precede politics, business can set up the environment in which political solutions can be made more possible. In this regard, Vienna Economic Forum ought to continue its valuable work, the same way it has been doing it in the past 20 years and as an integral part of how VEF views the excellent relationship with the Republic of Kosovo. Vienna Economic Forum will continue its work with Kosovo and continue to assist Kosovo on its path to full and complete Euro-Atlantic integration.

During his **Keynote, H.E. Mr. Albin Kurti, Prime Minister of the Republic of Kosovo** expressed how happy he is having Prishtina serve as a seat from which stronger ties with members of the Western Balkan countries and the Western European partners are forged and his hope that Prishtina serves as a joyous and productive ground for many more talks on cooperation in the future. H.E. Prime Minister Kurti exchanged his thought on regional cooperation and sustainable investments via technological innovation. The Prime Ministers accentuated that aligning the core values of Kosovo with their economic objectives has been the approach with which the Government of Kosovo has set out to master the tasks at hand.

H.E. Prime Minister Kurti shared many of the achievements of Kosovo in the past and his enthusiasm about the future, as well as about the ambitious and great years to follow. He especially emphasized that the questions surrounding supply chains, energy security, ethical technological development, climate action and environmental sustainability require that we put our best efforts forward to brainstorm, plan and solve the demands and challenges of the future.

In her **Keynote, Dr. Lilyana Pavlova, Vice President of the European Investment Bank** stated that in order to ensure stable, strong, unfragmented and resilient region we must ensure unity and joined efforts despite the multiple challenges we are all facing. She accentuated that nowadays “uncertainty is the new certainty” however at the same time we are given an opportunity to have a more forward looking and visionary approach. At this very moment we need to make sure that there are massive investments, especially in the time of crises. We need to ensure mobilization of the private and the public sector resources together, provide support for the energy transition, decarbonization, digitalization and connectivity. Dr. Pavlova emphasized that in order to step up the support, the European Investment Bank last year created a special branch called EIB Global intended to strengthen the local presence of the EIB in the Balkans and in all of the countries that the EIB is operating in globally in order to ensure a more tailor made, specific support in delivering the investment.

Vienna Economic Forum gave the Republic of Kosovo an **Award** for 15 years excellent cooperation and contribution to the economic development on national and regional level. The award was accepted by the **Prime Minister of the Republic of Kosovo and Patron of Vienna Economic Forum, H.E. Mr. Albin Kurti.**

During the **Second Session: “Sustainable Investments in Times of Crises and Fragmented Environment”**, in her **Keynote H.E. Dr. Artane Rizvanolli, Minister of Economy of the Republic of Kosovo** accentuated that policy making and investment decision have never been more challenging due to the ongoing crises but at the same time has never been easier in the context of energy independence, renewable energy and fighting climate change where there are clear, no regret investments in the fields of energy transitions and renewable energy which are the top two priorities.

Mr. Liburn Aliu, Minister of Environment, Spatial Planning and Infrastructure of the Republic of Kosovo** stated that renewable energy is one of the sectors in Kosovo where sustainable investments can have a significant impact.
